

Assembly instructions 01/2022**TOOLS REQUIRED:**

Allen key SW 5 (enclosed)

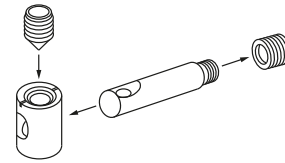

8 x XS bolts

8 x connector housings

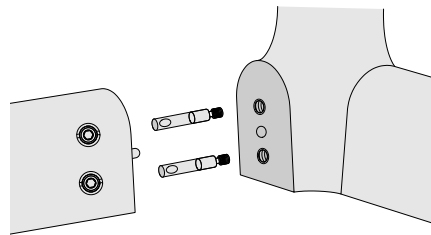

8 x grub screws

cylinder head screws (M6x70)
and flat washer

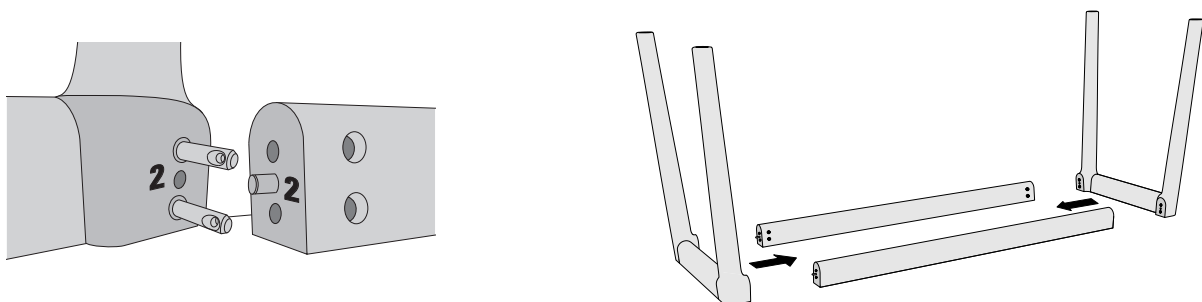

Watch this video for further information on the metal fitting:

Please assemble the table **on a soft surface (e.g. a carpet or blanket)** to avoid damages.

1. Screw the XS bolts into the pairs of legs (do not overtighten!) and insert the connector housings into the side rails. Align the slots of the connector housings with the XS bolts.

2. Assemble pairs of legs and side rails **according to the numbers**. Connect the parts and tighten the connectors with grub screws.

3. Screw the frame onto the table top using cylinder head screws (amount depends on size of the table).
